Gcalendar
Posted by B93 - 2010/12/17 16:35

Hello Edwin,

Is Gcalendar (http://extensions.joomla.org/extensions/calendars-a-events/events/events-calendars/1625) compatible with JMS? It is not on the extensions list.

Best regards,
Klaas Muizelaar

Not yet.
I will have a look to add it in the next release.
