JOOMLAWATCH and MULTISITES problem in country

Posted by miki82 - 2012/05/13 20:48

_____

Hello
I have this component joomlawatch
www.extensions.joomla.org/extensions/site-management/analytics/visitors/3940 and multisites

but in i cant see the countrys and cant use meta redirections

see problem in this picture http://www.jms2win.com/images/fbfiles/images/watch3.jpg
i do it www.corephp.com/forum/index.php?topic=2045.0
but dont resolve the problem, i think is good way but i cant do right.

thanks for the help!
