

This Jms Multi Sites version add:

- the possibility to create website from the front-end that share a whole website.
- a new API function to retrieve the website information when used in plugin or external component or modules.
- a fix on a fatal error that occurs when the joomla JFile class is not declared.
Add the "import" of this declaration.

Bundled with Patch Definition 1.2.32.

Add JMS Tools (install) definitions for :

- Joomla Quiz,
- JUMultithumb,
- wbAdvert

Add sharing definition for:

- Joomla Quiz.
Not tested and not guarantee. Just a candidate for sharing.
- Shipseeker.
