RS Event is not yet defined in JMS Multisites.
We never reviewed it.
So if you want that we review this extension and see if we could add it as a sharing candidate then send us an email with the extension in attachement.
See our contact us menu for the email address.

A candidate RSEvents sharing is now present in the JMS Multisites 1.2.45 (patches 1.2.51).
See change history
http://www.jms2win.com/faq/change-history-v12x
