

This Jms multisites patch definition adds some Joomla 1.6.0 beta 3 compatibility.

It also add JMS Tools (install) definitions for :

- Joomla Flash Uploader,
- synk,
- Akeeba Backup,
- Blue Flame Forms For Joomla,
- Extended Menu,
- JB FAQ, JB Slideshow,
- JEV Location,
- Spec Images,
- JVideo!,
- JoomLoc

*Remark:*

Incompatibility with RocketThemes RokDownloadBundle version 1.0.1

The new RokDownload component is packaged into a RokDownloadBundle that install the RokDownload component as a core joomla component.

JMS Multisites does not provide interface to install "core component" that normally are the one present when installing the joomla cms.

and add the sharing definition for:

- JoomLoc
