Hi

I'm looking at purchasing the pro subscription for redshop. Will there be a patch created for it in the near future?

If you want that we have a look in redshop, please send us the extension in the attachement of an email.

If this extension is not encrypted, we will review it and will see if we can add its definition in a next release of Jms Multisites.

Our email address is present in the "contact us"

Please review this extension as Redshop is a great shopping cart extension. Alot of Virtuemart users have switched to redshop over the last year and a half as redshop is GPL, has more features than virtuemart and has great support.

The joomla 1.6 version is due out within a week or two as well.

As mentioned in our previous post, if nobody send us the extension for review then we can not help you.
So if you want that we review the RedShop, please send us the RedShop extension in the attachement of an email.
See the contact us for the email address.
