When the captcha is wrong, login again.

- ▶ When the **captcha** is wrong during the login , you are redirected to another login form where you can enter again the login information.

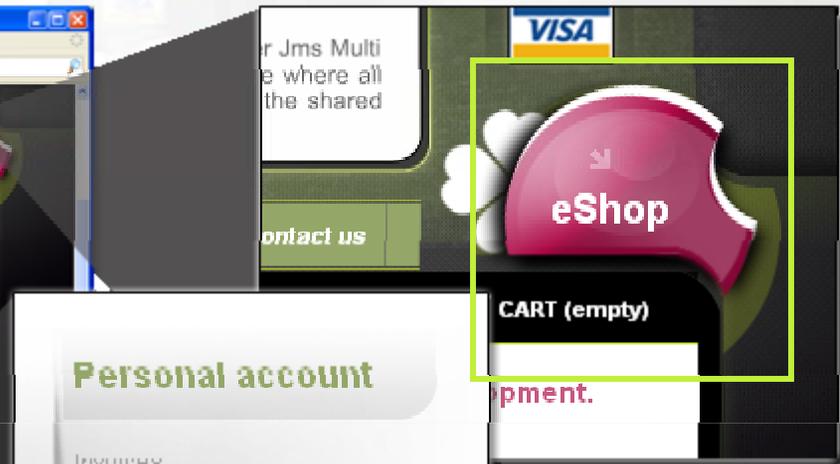

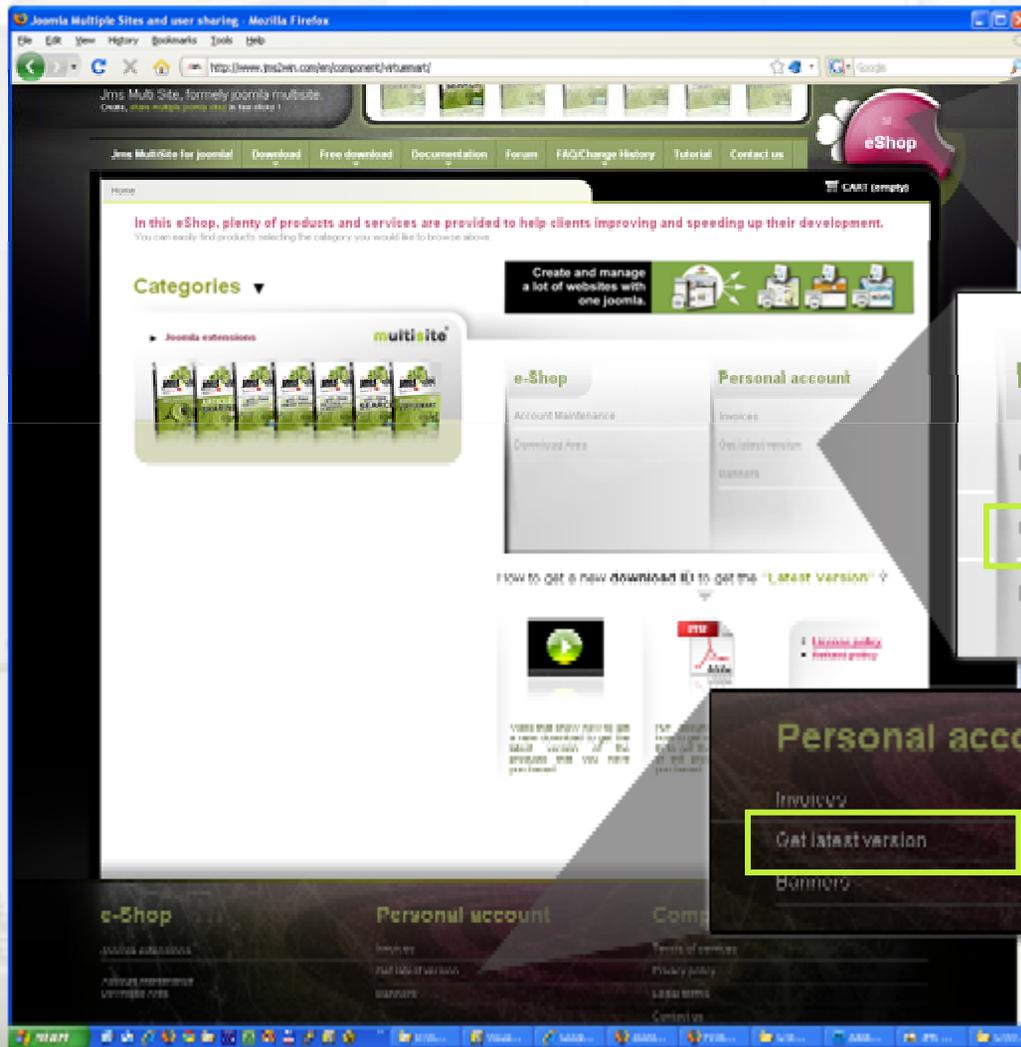

The screenshot shows a Joomla! login page in a Mozilla Firefox browser. The browser's address bar displays the URL <http://www.jms2win.com/en/joomla-multisite>. The page features a navigation menu with 'Home' and 'Login' options, and a 'CART (empty)' icon. A prominent error message states: 'Error: You have entered the wrong CAPTCHA sequence. Please try again.' Below this, the 'Login' form is displayed, including fields for 'Username', 'Password', and a 'Remember Me' checkbox. A captcha image with the characters 's1738' is shown, along with a 'Login' button and links for 'Letters not clear?', 'Click to renew captcha', 'Forgot your Password?', 'Forgot your Username?', and 'Register'. A secondary, smaller version of the login form is visible on the left side of the page, partially obscured by a diagonal shadow.
