"manage sites" bug
Posted by egptech - 2012/11/07 21:45

I want to Edit or Delete a site under "Manage sites" but event if I check an item there is an error message: "Please first make a selection from the list"....which I did !

Have a clue ?

Joomla 3.0.1
JMS Version 1.3.0.RC1 - FULL
Patches definition Version 1.3.00

I will cross-check.

Concerning the edit, you have the alternate solution to click on the link that directly edit the record.

---

there is a jQuery error when you click a radio button for selection

ReferenceError: isChecked is not defined

isChecked(this.checked);

I have cross-checked and fixed the bug that will be release in JMS 1.3.0

As I am in travel for the Joomla World Conference where I am speaker, I will try to do my best to publish the new release before JWC
