multisite can working with virtuemart or not???

Posted by hafiz - 2012/09/19 06:35

_____

hi there

i have a question to ask about multisite and virtuemart.

the scenario is:
1.im already create a site with multisite and virtuemart.
2.im already create a default site and assign a template and install virtuemart in there.
3.all running perfectly.
4.then, i already create a slave site.this slave site running perfectly also.in my slave site administrator already have virtuemart.
5.but,the problem is,when i click at virtuemart menu from slave front end site,this notification revealed :
"An error has occurred.
The requested page cannot be found.
If difficulties persist, please contact the System Administrator of this site and report the error below.
#404 Category not found"

_____

YES JMS can work with VirtueMart.
This www.jms2win.com is a slave site that use VirtueMart for the order processing.

If you have an error 404, this is a symptom of a SEF error.
Perhaps a problem in the .htaccess configuration.

If you want that we have a look on your environment to help you identifying the origin of the 404, this is still possible with our billable support that you can order at
http://www.jms2win.com/en/joomla-multisite?page=shop.product_details&flypage=flypage_multisites.tpl&product_id=35&category_id=1
