Dear Edwin,
I can not Install jms_articles_sharing_v1.0.13 on Joomla 1.7
I allways geting this massage:

JInstaller: :Install: File does not exist
/home/content/23/3448123/html/roomglobal/tmp/install_4ebed18bb77b2/admin/install.xml

Also in my Get latest version i download this version but i think it did not update.
Could you help me please.

Best Regards
Reza

This is normal. The version 1.0.x is only working for joomla 1.5.
You need the "Article Sharing version 1.1" that we had to rewrite to make it compatible with joomla 1.6 and 1.7.
So you have to buy the new version.
