Forum Search Error

Posted by digitalglyptics - 2009/05/16 06:21

I just wanted to point out that there is an error on the search forum on this website. If I search and go to another page of results, it suddenly gets 0 results. This makes it very hard to find what I am looking for.

Thank you for the reporting.
I will try to update this extension in the future but the author has change a lot of things and that require a long migration processing.
Perhaps in coming month I will have time to update this forum extension that will perhaps fix the issue you have reported.
