This Component Opened Up New Opportunities for US

Posted by slboone - 2010/02/02 11:23

This unbelievably wonderful product single-handedly opened up new areas for our company to grow! We were stuck at a crossroads about to invest in custom programming or cancel our project altogether when we stumbled across Multisite. Edwin has been amazing providing support along the way and even created a new revision to address a feature we needed to be able to provide! Very rarely do you see any developer as dedicated to their product!

I can highly recommend that everyone buy this product with confidence and courage! What appears to be a daunting and overwhelming extension, is amazingly simple with all the documentation and support you receive from Ediwn, the videos and the forum! This extension has my vote as the most valuable extension I have ever utilized and I tell everyone I meet about it!

Thanks Edwin, you and Multisite are the best!!!

Sondra Boone

Could you elaborate more on how this helped you?
