having error while installation

Posted by chetanmadaan - 2010/03/03 02:20

Fatal error: Out of memory (allocated 176160768) (tried to allocate 32 bytes) in /home/content/83/5356083/html/template/libraries/joomla/error/exception.php on line 117

anyone please.

this is ofcourse not the php.ini file as there is already a joomla installation running in the same directory and also working.

and also i have uploaded the php.ini file as well.

thanks.

got it fixed with re-creating the template.

thanks.
