plugins/user/jsmsjoomlausraccount.php on line 57 Posted by chetanmadaan - 2010/04/06 02:11
i am having this error after the second page of jomsocial Registration.
URL: http://173.201.180.40/template/multisites/lasvegas/index.php?option=com_community&view=register&task=registerProfile&Itemid=15
Error: Fatal error: Class 'DateTime' not found in /home/localizit/public_html/template/plugins/user/jsmsjoomlausraccount.php on line 57
try registering a user and see what happens.
Thanks.

I don't know this plugin. Would you please send us this plugin to understand what it does.
Class error let suppose that is require a compnent or something else that is not present.
Which version of JomSocial are you using ? The latest that we tested is 1.6.283
