Error installing patches.

Posted by chetanmadaan - 2010/06/01 15:32

---

i installed it on a new server and i am having error during installation.

* Error during installation of the file "configuration.php"
* Copy failed

One or more backup file is missing. The original file(s) can not be restored.

You have to check the permission of the file.
Probably the file is owned by a user that can not modify the file.

So check the owner and permission of the file.
