sub directories?

Posted by aclhkaclhk - 2010/08/20 11:12

I am a newbie to JMS.

could we use subdirectories for each site?

eg.
www.abc.com/site1
www.abc.com/site2
www.abc.com/site3
www.abc.com/site4

instead of site1.abc.com, site2.abc.com?

==========
