Order problem
Posted by mcm - 2010/08/25 12:48

Hello, I tried to order yesterday, but ran into trouble with the credit card method. No response from the contact page today either.

Does anyone know how I could change my order to Paypal? (if it's possible to do it myself) By what method do y'all get administrative responses best?

You can not modifed the payment method once you have completed the order.

You have to re-create a new order
