Multisite Content Sharing on Joomla 1.6

Posted by miami - 2010/10/18 19:34

Will Articles sharing Version 1.0 for Joomla Multi Sites work with the nested categories of 1.6?

It's rather urgent.

Thank you.

NO.

We have to rewrite an "Article Sharing for JMS" for Joomla 1.6.
The current version is only Joomla 1.5 compatible.

Thank you. Any time or roadmap as to when it will be 1.6 ready?

We are waiting that Joomla 1.6 become Release Candidate before starting the creation of a new "Article Sharing for JMS working with J1.6". The elapse time after J1.6 RC is probably 3 month.
