Some FAQ before i buy it?

Posted by Boarii - 2011/08/01 14:39

Hello there..(sorry for my english)

I want to know before i buy this great extension..

This is what i want for my site:

Can i use same template and style in all website?
Can i use same extension in all site like, All site share same jomsocial?
Can install same extension in all other slave website? For exemple for each website i want fresh kunena install in it.

---

1) Yes you can share and use the same joomla templates between different websites
2) Yes you can use same extension in all sites and some of them can be shared.
See the list of extension that are defined in Jms Multi Sites and the one that can be shared.
http://www.jms2win.com/en/list-of-extensions?view=extlist&id=269&Itemid=53
JomSocial can be shared.
3) You can install any extension in the slave site.
The only constrain is that the extension is already installed in the master website.
