Backing-up site

Posted by adeptdesigns - 2012/02/01 21:03

Hello,

I looked in your tutorial section and couldn't find a tutorial on the proper way to create site backups.

Can you tell me the proper steps or show me the correct url to a tutorial.

Thanks.

See the FAQ and the free download section.
We published a method to perform manual backup and also publish a shell script that can be used in CRON to perform backup

http://www.jms2win.com/en/faq/faq-joomla-multi-sites#cat-268
