Virtuemart sharing

Posted by godo - 2010/03/24 10:05

Hi,

When I try to share virtuemart I get the following error:

Error query . DB Error: You have an error in your SQL syntax. Check the manual that corresponds to your MySQL server version for the right syntax to use near 'OR REPLACE VIEW ns_vm_auth_group AS SELECT * FROM `equip2009_63 SQL=CREATE OR REPLACE VIEW ns_vm_auth_group AS SELECT * FROM `equip2009_63937`.`jos_vm_auth_group`

Could anyone help me to solve this?

Thanks

==========

If Linux, set all your permissions to 777 just to install. Reset back when finished.
Don't know about windows.

Are you sure that your are using a MySQL 5.0 for the DB where the table prefix is "ns_"

Also check that you have a DB called "equip2009_63937" with table "os_vm_auth_group"
