joomla 1.6 and 1.5

Posted by Arro_Inc - 2011/07/12 08:55

Is it possible to share users using Joomla 1.6 and a directory with 1.5 installed?

==========

NO.
Not only because this suppose to have 2 joomla installed (1.5 and 1.6) but also that the Joomla data model between joomla 1.5 and 1.6 is identical. Unfortunatelly, this is not the case.
