Questions about new dynamic DB and user creation

Posted by TonyGee - 2012/04/18 04:21

Hi Edwin,

Can you please explain if we need to make any modification to our existing configuration for dynamic database and user creation since the upgrade in JMS 1.85?

Thanks and regards.

If you had already setup your server for dynamic DB creation and dynamic MySQL user creation, this does not had been changed.

So I don't understand your question
