MultiSites User Sharing error! PLEASE HELP!!!

Posted by JohnLeger - 2012/04/27 16:38

I receive the following error when I open the Multi Sites User Site and click on NEW. This is a new installation of Joomla and Multi Sites. The User Sharing component is currently on installed in the Master site. I have six slave sites that I would like to share the Master users and sessions.

Here's the error! Sorry for the formatting.

Re: MultiSites User Sharing error! PLEASE HELP!!!

Posted by edwin2win - 2012/05/01 10:21

They are not errors.

This is NOTICE reported because you setup your server to display all kind of errors.
In live website, it is generally recommended to avoid publish such kind of errors.

See you php.ini to setup the error level reporting.

We will fix the "notice" in a next release of the "Partial User Sharing".

Thanks! Shutting off the notices worked.
