Com_OBPHPList

Posted by darshan - 2012/06/12 09:37

Hello there,

I am using multisite as well OBPHPList on my server.Could you please let me know is there any possibly to share OBPHPList among other slave domain.

If yes,could you please guide me through...

Thanks

Darshan

I don't know yet the com_obphplist extension.

Send me this extension in the attachement of an email and mention also that you would like that we review it for the sharing.

See contact us for the email address
