Error in JMS1.2.25

Posted by KingoftheRoad - 2010/03/21 13:49

Hi Edwin,

After I upgraded to JMS1.2.25, I cannot get the tools manual working. Attached pls find two screen captures.

1) An error message pop out once I select the slave site under the tools.
http://www.jms2win.com/images/fbfiles/images/JMS_error_800.jpg

2) The slave site icon keeping on spinning after that...
http://www.jms2win.com/images/fbfiles/images/tools_menu_error_800.jpg

Pls advise.

Many thanks.

Seth

Oh...Problems gone once I turn off my Firebug 1.5.3..

Should be a Firebug problem. :P
