Hi. Is iJoomla Surveys compatible with JMS?

Thx and cheers...

I don't know.

Send us this extension in attachement of an email.

See contact us for the email.

We will review it.

All we can tell you is that we already defined a "iJoomla Ad Agency".

So perhaps this is possible to do the same with this extension.

We can not tell you until we have reviewed it.

I will use BreezeForms instead.

Thanks and cheers..
