JMS Multisite with Magebridge?

Posted by mariusd - 2010/04/29 20:05

Anyone tried to use JMS Multisite with Magebridge and want to share their experience?

MageBridge is not yet defined in JMS multiistes.
So if you want that we review it to see if it can be defined in JMS multisites and see if it could be a candidate for sharing then send us this extension in attachement of an email.
