CB Paid Subscription and JMS Integration possible?

Posted by iostream01 - 2010/06/29 05:49

Hi,

I have a website that using JMS. I was wonder is it possible to intergrate JMS and CB using CB Paid Subscriptions? Here how it work: A user will subscribe a website i added his purchase to CB Paid Subscriptions and after purchasing he/she can create a his/her own website and JMS will do that. I getting in trouble how to do this and how is it possible to do this. All example are using vitue mart. Any idea?

Your response is greatly appreciated.

Thanks,
Norman

If you want to create another plugin for CB, you can do it.
The principal used in JMS Multisites is the reverse of the one that you described as you can not request to pay something that you are not sure to deliver (in case where the website could not be created).

The principal used is the start create a slave site with "pending" status and when you are sure that it can be created then you can ask to pay for it. When the payment is received by your shoping cart system (ie. CB if you develop a specific interface) then you can after confirm the slave site as you are sure that it exists and is created.

This bridge for CB does not exists but you can develop a specific one.

Hi Edwin,

Thanks for your response. I had got it on going, but upon creating a website using JMS i had encounter this error "MakeDB - DB Connection fail.WARNNOTCONNECTDB" . I think this a user privilege? Any i idea? I'm using this JMS version given below.

Version 1.2.4 (Latest available: 1.2.32)
Patches definition Version 1.2.38 (Latest available: 1.2.38)

I'm not allowed to update there JMS for some reasons.

Thanks,
Norman

_____

To get the latest version of JMS Multsites, you have to follow the procedure described in the FAQ
http://www.jms2win.com/faq#sec-122

When you are logged, you will retreive in your personnal account menu the invoices corresponding to your orders and also a "get latest version" menu that allows you get the latest version of the products that you have purchase.
So login into jms2win.com menu and go in the "personnal account" menu that show you the information relatives to your purchase.
