Compatible shopping carts for JMS multi site Posted by snowflake03 - 2010/08/19 06:39
Hi Edwin,
Just want to know, what are the best/compatible shopping carts for multi site?
I checked the joomla forums and i found out that IXXO shopping cart is the way to go instead of virtue. Does JMS support IXXO?
Also, we are leaning towards magento-joomla shopping cart by using a bridge. Is that possible?
Thanks a lot!
