About FlexBanner
Posted by VDmitry - 2011/03/23 22:05

Dear Edwin!

What is about possibility to share FlexBanner DB from master to slave sites?

Br, Dmitry.

We don't know yet the FlexBanner.
If you want that we review this extension, please send us the extension in the attachement of an email.
We will first try defining it into the JMS tool and perhaps also declare it for the sharing.
For the moment, we don't know this extension.

I have well received the FlexBanner by email and add its definition for a next release of the Jms Multisite patch definition.
It can NOT be shared because this extension use the sections, categories and articles ID to declare the banner and that do not make reference to the same articles in each websites.
