List of compatiblie extensions

Posted by Batch1211 - 2011/04/24 18:51

_____

Hey,

is there a list of all extensions that JMS tools has install definitions for? I'm looking for an image galery, and I would love to have a list to see, if the chosen galery is supported. I know that I could just install it and see, but a list would safe some work.

Best wishes,
Alex
