Fatal error:	Clace	'Multicitos	Controller'	notfound
raiai enoi.	しいさいい	IVIIIIIISIIES	COULOUEL	- 110110111101

Posted by jsohler - 2009/09/02 09:21

Im getting this error when i uninstall the jms component.

Fatal error: Class 'MultisitesController' not found in

/home/foodtabs/public html/administrator/components/com multisites/patches/joomla/check jms vers.p hp on line 37

Joomla Multi Sites version: 1.2.0 RC4

Joomla 1.5.11

Please Help

Is there a file missing?

I need to upgrade the jms

Sorry i did post this to wrong forum category, so ill post on the right one...

Thanks,

Re:Fatal error: Class 'MultisitesController' notfound Posted by edwin2win - 2009/09/02 13:02

Maybe you should effectivelly update your JMS.

The latest version is JMS 1.2.4.

See the FAQ for the procedure to get the latest version

http://www.jms2win.com/faq#sec-122

Re:Fatal error: Class 'MultisitesController' notfound

Yes, i need effectively update/upgrade the JMS on my site, but i can't update/upgrade because i can't uninstalling the old version "Joomla Multi Sites version: 1.2.0 RC4"... because of the error saying:

Fatal error: Class 'MultisitesController' not found in

/home/foodtabs/public html/administrator/components/com multisites/patches/joomla/check jms vers.p hp on line 37

How can i fix these? problem...

I need to upgrade into The latest version is JMS 1.2.4.

JMS, multisite for joomla - Joomla Multiple Sites and user sharing

Do not try to uninstall JMS.

Directly install JMS 1.2.5 over the existing one.
