Error on upgrade to V1.2.35

Posted by trm001 - 2010/08/17 11:41

Hi Edwin

I have tried to upgrade to V1.2.35 and have the following error;

"There was an error uploading this file to the server."

Prior to doing the upgrade i un-installed the patches as instructed.

Now i cant re-install patches for the version i had - V1.2.26 or re-install this version.

What do think is wrong???

Rgds
Jamie

Most frequent reason where you can find answer in this forum is related to the fact that your server does not allow to upload files > 2MB.
The latest version of JMS is 2.3MB

That makes sense will do this.

Thanks
