JMS Article Sharing Category Blog Layout Ordering

Posted by office@mvcmotors.at - 2011/09/07 15:59

Hello,

I have the category news at my main page and I'm sharing the news at the slave site, but I can't change the ordering there.

I tried different article orderings but it didnt solve my Problem.
I'm trying to get the ordering like I ordered it in Joomla (Article Manager Order).
But it doesn't change anything, so I guess its a bug.

Any suggestions?

Which is the version of the Article Sharing that you are using ?
Which version of Joomla do you use ?

I will try reproducing it.

_____

I figured out what the problem is. It always takes the joomla ordering. It doesn't matter what ordering I choose at the menu item for article sharing.
But thats enough for me. Just good to know that you have to change the joomla ordering of the articles.
Tested with version JMS Article Sharing 1.1.2
