Upgrade Option
Posted by canadareic - 2012/08/14 01:54

_____

I see we are getting new upgrade.

As long lasting client I should ask are we eligible for upgrade. Considering full 1.3 version.

What about compatibility with other jms2win products?

Thank you

_____

For all customers who have purchased JMS 1.2 within the last 12 month, we will provide them a discount coupon to allow buying the new JMS 1.3 at a lower price.

We expect to send an email to the existing customer that have purchased JMS during the last 12 month when we will consider JMS 1.3 as a Release Candidate.

To any person who are in this condition and that would like to upgrade to JMS 1.3, you can send me an email to ask me for a discount code.

Concerning the compatibility with the additional extensions, they should be compatible but we didn't have re-checked them yet.
We currently know that we have a bug in JMS 1.3. beta3 that does not allow runing the "Article Sharing for JMS".
We have fixed it and will be available the next release. (RC or Beta 4)

_____

If someone buys the 1.3 beta it includes future updates and bug fixes correct?

_____

Yes, like the other product, you can get the latest version as explained in the FAQ.
http://www.jms2win.com/en/faq/faq-joomla-multi-sites#cat-122

So you can get the latest JMS 1.3.x version and therefore receive the bug fixes.
