JMS, multisite for joomla - Joomla Multiple Sites and user sharing

Generated: 15 December, 2025, 21:00 multisites menu item not working Posted by donjarleone - 2012/11/03 01:32

Trying to access menu item parameter gives: Fatal error: Cannot redeclare class HTTP2Win in /administrator/components/com multisitesmenuitem/classes/http.php on line 44 :S Re: multisites menu item not working Posted by edwin2win - 2012/11/06 15:07 I will cross-check

Re: multisites menu item not working Posted by edwin2win - 2012/11/06 16:28

I have cross-check and confirm the potential issue.

I will create a new release of the Multisites Menu Item that fix that.
