# Special forum for registered users?

Posted by james2581 - 2012/09/09 09:04

---

I bought 1.3 last night. I clicked on the register now button but it didn't bring me to a login like the video shows. How do I access the special forum?

We didn't create specific forum for users who have purchased and registered JMS.
This is the same forum for all the registered user in joomla.

If you have a specific question post it in the category that you think the most appropriate.
