Multisite component - Site offline issue Posted by abhijoom000 - 2013/11/11 17:37
Hello
We are facing a problem with Multisite component(com_multisite), we marked "yes" to "site offline" option in "global configration" of Joomla 2.5 But site is still working online.
We are using JSN Power Admin as a administrator, but still unable to offline the site.
