JMS, multisite for joomla - Joomla Multiple Sites and user sharing Generated: 12 December, 2025, 03:46

| :master_db: appearing in search results Posted by iage - 2014/11/28 15:42 |
|---|
| Hello, |
| In search-results on our slave-sites, the text ':master_db:' appears. Can this be hidden somehow? |
| Kind regards -Stephan |

| I don't know where it appears and the content but you have the Search/Replace plugin that may sometimes helpfull to perform specific task. https://www.jms2win.com/en/component/docman/doc_details/13-searchreplace-utility |
| So depending on where it appeards, you can setup the Search/Replace to replace anything in a webpage. |
