Joomla 3 and MultiSite 1.3

Posted by BradC - 2012/09/09 05:02

Can not get Multi Site V1.3.0.beta4_basic to show.
When I click Multi Sites under Components all I get is a blank page.
I'm trying to test your component on Joomla 3.0.0_beta1 install.

If you have a look in the change history you will see that you need the beta 5 to be partially compatible with joomla 3.0 beta 1.

See the FAQ for the procedure to download the beta 5
http://www.jms2win.com/en/faq/faq-joomla-multi-sites#cat-122

The JMS 1.3 beta 4 is partially compatible with Joomla 3.0 alpha 1 (not alpha 2)
