How to uninstall sobipro comp from joomla admin

Posted by abhijoom000 - 2014/02/12 22:00

---

when i am trying to uninstall component from joomla admin panel then sobi pro component not uninstalled properlly under extention manager->manage and then i i am trying to uninstalled component but error has occured

JFolder: :files: Path is not a folder. Path: /home/hso2/public_html/administrator/components/com_sobipro
JInstaller: :Install: Cannot find XML setup file
JFolder: :files: Path is not a folder. Path: /home/hso2/public_html/administrator/components/com_sobipro
JInstaller: :Install: Cannot find XML setup file
JFolder: :delete: Path is not a folder. Path: /home/hso2/public_html/administrator/components/com_sobipro
JFolder: :delete: Path is not a folder. Path: /home/hso2/public_html/components/com_sobipro
Component Uninstall: Can't uninstall. Please remove manually
Error uninstalling component.

and when i am trying to installed sobi pro component from joomla admin section then also error has oiccured. the has shown below :

Component Install: DB function reports no errors
JFolder: :delete: Path is not a folder. Path: /home/hso2/public_html/components/com_sobipro/media
Error installing component

Tody i have succesfully installed sobipro component in master site but suddenly when i have to installed sobipro component in slave site so this error has occure

500 - An error has occurred.
JDatabaseMySQLi::query: 1061 - Duplicate key name 'uniquePermission' SQL=ALTER TABLE `sea_sobipro_permissions` ADD UNIQUE `uniquePermission` (`subject`, `action`, `value`, `site`);

_____

Globaly, the installation error and uninstall error seems to be due to a permission error.
Do you have such error with the latest JMS 1.3.28 version or with a previous version ?
Which is your joomla version ?
I suspect that you have this error on Joomla 3.2
