Warning: chdir() [function.chdir]...

Posted by larleuch - 2009/02/07 01:41

_____

Hi!
I have a problem when I am in the template gestion:

Warning: chdir() : No such file or directory (errno 2) in .../web/administrator/components/com_multisites/helpers/helper.php on line 78

Have you got an idea? Thanks, your component is so great!!!

_____

This means that the temporary directory you have defined in Joomla (Global Configuration) does not exists.

JMS use the "tmp" and "log" directory specified in Joomla to test if the Symbolic Links is allowed.

Check if this directory is persent and correctly configured in Joomla Global Configuration
